SDCooper Company: The Leader in Retirement Fund Rollovers!

Using your retirement funds to start your own business is a big decision.

You should be confident that the company you are working with to complete this process is the best fit for you. A company that knows all the ins and outs of the process, and can be there every step of the way. SDCooper Company urges you to speak to several companies to find the one you're most comfortable working with. We are the only company to do this, because we know that after speaking to our competitors, it will be obvious SDCooper Company is the most knowledgeable, has the best service, can finish the process the quickest, and best of all for the moment, is the least expensive.

- We are the national leader in ERSOP®/ROBS Plan creation and administration.
- We were the first company to be Pre-Approved by the IRS and the SBA!
- We are the only company that individually submits each Plan for a client-specific Favorable Determination Letter.
- We have the best track record of audit success—over every other company.
- We DO NOT sell investments or force you to open any account with our company.
- We charge a flat fee, and our prices have not increased since 1999.
- We do not bill on an advanced monthly basis, you pay when we do the work.
- We have the quickest turnaround time in the industry! Typically takes just over 1 week to complete the paperwork, then the balance of the second week to get the money to move.
- We will include a Salary Deferral feature [401(k)] only if it is needed.

Please call us or visit our website to learn how we can help you fund your business today!
